

M365 Security Assessment

Understand your risk

Fo⁷⁷ **Un**⁷⁸ **Da**⁷⁹ **Ti**⁸⁰ **On**⁸¹

Cloud-native, cloud-first, hybrid or on-premises? With so many choices available to organizations today, it can be difficult to decipher what is the best option for your business. Alchemy helps to ensure that choices made today will both, lead to imminent success, and prepare against tomorrow's unforeseen needs.

Alchemy's Foundation practice centers on the Microsoft ecosystem, communications and collaboration. In the complex world of integrations, Alchemy has a proven methodology to simplify solutions, increase user adoption, reduce cost and streamline security across the platform.

Let the transformation begin.

ALCHEMY
TECH GROUP

Alchemy Technology Group is an industry leading IT advisory, consulting and reseller firm focused on end user experience, security, cloud and automation.

Assessment Overview

As organizations adapt or change their enterprise collaboration capabilities to meet "telework" requirements, many organizations are migrating to Microsoft Office 365 (M365) to solve the collaboration services challenges. Due to the speed of these deployments, organizations may not be fully considering the security configurations of these platforms.

The M365 Security Assessment is designed to help organizations align their M365 environment to meet business and security objectives. Alchemy will do a deep dive into your environment to measure current settings against best practices and perform a gap analysis to easily see areas of concern.

Assessment Details

Alchemy security consultants will deliver a security assessment covering the following:

Discovery

- Overview
- Business/Security Goals
- Identity Strategies

Control Review

- Perimeter
- Visibility (Logging, CAS, Workload Logs, ATP, On-Prem Integrations)
- Control Points (DLP, AIP, ATP, CA, MFA, IDP Federation)
- Public vs Private (Sharing, Federation, Guest Accounts, Roles)

Workload Security

- Exchange
- SharePoint
- Azure
- Apps
- Teams
- One Drive

Business Outcome

Upon completion, you will get a detailed report showing current state of your M365 environment and a gap analysis report aligned to your business goals and objectives. In addition, Alchemy will provide detailed recommendations for each finding that is designed to help your organization close the gap and secure your environment.
